

## Admissions from program 3181 to 8095: Step-by-step process

### Admissions process: Step by step guide

1. Submit your application directly to UNSW using the [UNSW Apply Online portal](#), and ensure that you also upload the compulsory supporting documentation listed below:
  - Personal statement describing why you want to be in the Master of Clinical Optometry program (max 300 words)
2. UNSW Admissions will acknowledge receipt of your application. Only applications that include all relevant compulsory supporting documentation and are received before the application deadline will be sent to the School for further assessment.
3. Once the application deadline passes, the School Admission Committee will finalise the interview shortlist. The deadline for 2021 applications is 15<sup>th</sup> October 2022.
4. Only shortlisted applicants will be invited by the School to participate in the interview process.
5. The interviews are scheduled to take place in November or December, 2022. It is likely that the interviews will occur on the weekend(s) so schedules should be planned accordingly. Applicants who are unable to attend their interview on the relevant date will not be considered further. Final interview dates will be emailed by the School to all shortlisted applicants.

6. The interviews must be attended in person. If social distancing, isolation or other directives are still in place by the interview dates, and would preclude interviews in person, interviews will be held by Zoom or another suitable online platform.
7. The format of the interviews will be Multiple Mini Interviews (MMI), which consist of several very short interviews with interviewers drawn from academic staff, optometrists and community representatives.
8. After all interviews are completed, the School Admission Committee will consider the applications, including WAM, the MMI interviews and personal statement in ranking applicants. The WAM for the program 3181 at the application deadline will be considered.
9. Offers are contingent on successfully fulfilling requirements for entry into the 8095 program by the end of the calendar year, including completion of the 3181 program. No deferrals of offers are allowed and students unable to accept the offer for a placement in the 8095 program will be required to reapply in subsequent years. The School Admission Committee's decision is final, and no appeals will be allowed.
