

Barriers and enablers influencing eye care for older people receiving home care and residential aged care services.

Recruiting optometrists to take part in a research project exploring challenges in providing eye care to older people accessing home care and residential aged care services.

Who are we looking for?

You are an OPTOMETRIST who satisfy any of the following criteria:

- Current or prior experience providing eye care to older people receiving home care or residential aged care services
- Wish to work in these settings but have not had the opportunity

What's involved?

Participants will be asked to complete the following if they agree to participate:

- Demographic form which will take less than 5 minutes
- 45-60 minutes face to face or virtual interview (or) 60-90 minutes in-person or virtual focus group

Who do I contact?

If you have any questions and would like to speak to the Chief investigator, please contact: Dr Sheela Kumaran sheela.kumaran@unsw.edu.au or +61 2 9065 9964

Please use the link (<https://redcap.link/barriers-enablers-study>) / QR code below or email the following to register your interest in taking part in the research:
